Education

B. Tech, Computer Science and Engineering	2021 - 2024
• Computer Science And Engineering CGPA: 7.93	
St.Xaviers Junior College, Mumbai	2019 - 2021
• HSC , Percentage:79.17	
St. Xaviers High School, Mumbai	2018 - 2019
• SSC , Percentage:74.80	

Skills

Java | C | C++| Python | HTML| CSS | BootStrap | Tailwind | TypeScript| JavaScript | NodeJS | React | ReactNative | MongoDB | NextJS | Git | Docker

Work Experience

Sciqus Infotech Private Limited - Pune Frontend Developer	Feb 2025 – Present
Technologies: React.js, Scss , REST APIs	
<ul style="list-style-type: none">• Led frontend development for a web app serving over 2,000+ farmers, optimizing UI for mobile and low-connectivity areas.• Unified 4 standalone modules into one seamless platform, reducing code duplication by 35% and improving deployment speed.• Enhanced UI/UX of an internal social feed system, increasing internal engagement metrics by 30% through real-time content rendering and interactive components.	
Maulana Azad Polytechnic - Solapur	July-2024
<ul style="list-style-type: none">• React Development: Created a responsive front-end for a college management system using React, now utilized by over 5,000 users monthly, enhancing communication between students and administration.• Data Management: Automated student data processes, cutting manual entry time by 25 hours per week, enabling staff to focus more on student engagement and boosting operational efficiency.• Report Generation:Designed user role-specific reports that improved data-driven decision-making by 30%, leading to a 25% reduction in time spent on manual analysis.• Error Handling Devised comprehensive error handling and feedback mechanisms, reducing user-reported issues by 40% and ensuring smooth operation with incomplete or invalid data.• Authentication:Implemented secure authentication and role-based access controls, achieving a 25% reduction in security breaches.• Responsive Design: Enhanced UI/UX across desktops, tablets, and mobile devices, leading to a 20% increase in mobile user engagement and a 15% reduction in bounce rates.	

Projects

Public Transport Complaint System

April-2025

LiveLink- <https://public-transport-complain.vercel.app>

Technologies: Next.js, TypeScript, NeonDB , Drizzle , Nodemailer,

- **Developed** a full-stack complaint tracker handling **100+ daily complaints** from commuters and public transport staff.
- **Integrated** secure JWT-based login with multi-role access, eliminating unauthorized admin logins in testing.
- **Built** interactive dashboards and real-time ticket updates, reducing complaint resolution time by **50%**.

AI Job Application Assistant

May-2025

LiveLink- <https://ai-job-application-assistant.vercel.app>

Technologies: Gemini AI, Next.js 15, Tailwind CSS , Typescript

- **Engineered** an AI-driven tool that generates **personalized cover letters**, reducing applicant time investment by **70%**.
- **Applied** prompt chaining with Gemini AI to analyze job descriptions and map them to skills, increasing content relevance.
- **Added** export-to-PDF functionality with one-click download, improving user retention and repeat usage.

Mock Interview Platform

March-2025

LiveLink- <https://mock-interview-five.vercel.app>

Technologies:: Next.js, TypeScript, PostgreSQL (Neon DB), Clerk, UploadThing

- **Designed** a smart interview simulation tool using Gemini AI + LangChain, generating 100+ dynamic question sets.
- **Implemented** a real-time scoring engine and feedback mechanism, helping **80%** of users identify 3+ improvement areas.
- **Created** a responsive, multi-step UI with clean routing and file upload support, boosting user completion by **40%**.

Academic and Extracurricular Achievements

- Finalist of an Offline 36-hour PAN India Hackathon Arranged by HackHive , DAVV , Indore
- Completed **Advance React** Certification By Meta
- Completed **Node.js,Express,MongoDb** BootCamp
